In the event of any conflict or inconsistency between the provisions set out in the main body of this License and any of the Special Conditions, the provisions set out in the Special Conditions shall prevail (in the order in which they are listed in this paragraph).**

(C) **This License (and any documents incorporated by reference herein) is the sole and exclusive agreement between you and Arm for the Arm Tools, and (except as agreed in writing to the contrary) no other document, including (but not limited to) your purchase order or any other document supplied by you, will form part of this License.**

6.2 You agree to maintain all such Confidential Information in confidence and apply security measures (such measures to be no less stringent than the measures which you apply (or should reasonably apply) to protect your own like information, but not less than a reasonable degree of care) to prevent their unauthorised disclosure and use.

6.3 Subject to any restrictions imposed by applicable law, the period of confidentiality shall be five (5) years from the date of disclosure of the Confidential Information. You agree that you shall not use any such information other than in your normal use of the Arm Tools as permitted by this License.

7.2 The Arm Software described in any Arm Documentation is subject to continuous development and improvement. All particulars of the Arm Software and its use as described in the Arm Documentation are given by Arm in good faith. Consequently, the information contained in the Arm Documentation is subject to change without notice and is not warranted to be error free. If you discover any errors in the Arm Documentation please report them to Arm in writing. Any Arm Documentation provided to you that relates to specific industry quality and functional safety standard compliance may assist you in applying to a competent auditor for certification of Your Software or Your Hardware, but you acknowledge and agree that on its own such Arm Documentation may not provide sufficient evidence of, or be compatible with, the required safety compliance standards.

7.3 **Except as provided in clause 7.1 above, you agree that the Arm Tools are licensed "as is", and that Arm expressly disclaims all representations, warranties, conditions or other terms, express or implied or statutory, including without limitation the implied warranties of non-infringement, satisfactory quality, and fitness for a particular purpose. 8.2 Arm does not seek to limit or exclude liability for death or personal injury arising from Arm's negligence or Arm's fraud. Arm acknowledges that certain jurisdictions do not permit the exclusion or limitation of liability for consequential or incidental damages, and in such cases the above limitation relating to liability for consequential damages may not apply to you.

8.3 **Notwithstanding anything to the contrary contained in this License, the maximum liability of Arm to you in aggregate (in contract, tort or otherwise) in relation to or in connection with the subject matter of this License shall not exceed the greater of (i) the total sums paid by you to Arm (if any) for this License, and (ii) $10.00 USD. The existence of more than one claim will not enlarge or extend the limit.**

9. THIRD PARTY MATERIAL

9.1 The Arm Tools may contain material owned or developed by third parties, including but not limited to open source software, freeware and commercial software ("**Third Party Material**"). Any Third Party Material is subject to the terms and conditions of the applicable Third Party Material license(s) and is not covered under the terms of this License. Details relating to such Third Party Material shall either be presented to you at the time of installation or shall be detailed in the Third Party Licenses File(s). Your use of such Third Party Material is subject to your compliance with the applicable Third Party Material license(s).

9.3 No Third Party Material licensors shall have any liability for any direct, indirect, incidental, special, exemplary, or consequential damages (including without limitation lost profits) howsoever caused and whether made under contract, tort or otherwise arising in any way out of your use or distribution of the Third Party Material or the exercise of any rights granted under either or both this License and the legal terms applicable to any Third Party Material, even if advised in advance of the possibility of such damages.

10. GOVERNMENT REQUIREMENTS

10.1 To the extent that you are an agency, contractor or instrumentality of the U.S. Government, you and we agree that:

(a) the Arm Tools are commercial computer software and commercial computer software documentation, and that your rights therein are as specified in this License, per FAR 12.212 and DFARS 227.7202-3, as applicable, or in the case of NASA, subject to NSF 1852.22786. Arm acknowledges that, whilst commercial computer software or commercial computer software documentation shall be acquired under licenses customarily provided to the public, such licenses must be consistent with U.S. Federal law and otherwise satisfy the U.S. Government's needs ("**U.S. Government Requirements**"); and

(b) you may assign your rights under this License to the relevant US Government Federal Department or the successor contractor designated by the US Government Federal Department upon termination of your related prime contract with that US Government Federal Department. If you exercise your rights under this clause 10.1(b), you acknowledge and agree that you shall remain liable to Arm in respect of all your obligations under this License.

10.2 If there is any material inconsistency between (i) either a U.S. Government Requirement or a requirement of another government with which Arm is mandated by statute to comply and (ii) any provision of this License, the terms of the relevant government requirement shall prevail and the provision in question shall be deemed varied or deleted (as applicable) as required by the terms of the relevant government requirement. For the avoidance of doubt, in such circumstances, all other terms, conditions and provisions of this License will continue to be valid to the fullest extent permitted by law in accordance with the below clause 12.3.

11. TERM AND TERMINATION

11.1 Subject to clauses 11.2 and 11.3 below, this License shall remain in force until terminated by you, by Arm or (in the case of a time limited license) by expiry.

11.2 In the event of a party breaching of any of the terms and conditions of this License, which if capable of remedy, has not been remedied by that party within thirty (30) days of the date of breach, without prejudice to any of its other rights under this License, the non-breaching party may terminate this License immediately upon giving written notice to the breaching party. Upon termination of this License by you or by Arm, or upon expiry, you shall (and shall ensure that your Permitted Users shall) immediately (i) stop using the Arm Tools (or any element thereof) and any Confidential Information and, (ii) destroy all copies of the same in your possession or control, together with all Arm Documentation and related materials.

11.3 Notwithstanding the foregoing, except where Arm has terminated this License for your breach, your rights (if applicable) to distribute any of Your Software or Your Hardware developed using the Arm Tools prior to termination or expiry of this License shall (subject to your continued compliance with the terms and conditions of this License) survive such termination or expiry.

12. GENERAL

12.1 This License is governed by English Law. Notwithstanding the foregoing, to the extent that you are an agency, contractor or instrumentality of the U.S. Government, disputes arising under or relating to this License shall be decided under the U.S. federal law of government contracting, including without limitation the Contract Disputes Act. Nothing in this License shall prevent you from enforcing your intellectual property rights or seeking injunctive or other equitable relief in any court of competent jurisdiction. The parties hereby disclaim application of the United Nations Convention on Contracts for the International Sale of Goods and the Uniform Computer Information Transactions Act.

12.2 Except where Arm agrees otherwise in (i) a written contract signed by you and Arm, or (ii) a written contract provided by Arm and accepted by you, this is the only agreement between you and Arm relating to the Arm Tools and it may only be modified by written agreement between you and Arm. No terms and conditions contained in any purchase order or other document issued by you, or any advertising or other representation by you or any third party shall add to, supersede or in any way vary the terms and conditions of this License. This License (and any documents expressly incorporated into it by reference herein) represents the entire agreement between you and Arm in relation to its subject matter.

12.3 If any clause or sentence in this License is held by a court of law to be illegal or unenforceable, the remaining provisions of this License shall not be affected. Any failure by Arm to enforce any of the provisions of this License, unless waived in writing, shall not constitute a waiver of Arm's rights to enforce such provision or any other provision of

this License in the future.

12.4 Subject to clause 10.1(b), neither this License or any rights granted to you under it may be assigned, sub-licensed or otherwise transferred by you to any third party without the prior written consent of Arm. An assignment shall be deemed to include, without limitation (i) any transaction or series of transactions whereby a third party acquires, directly or indirectly, the power to control the management and policies of you, whether through the acquisition of voting securities, by contract or otherwise; and (ii) the sale of more than fifty percent (50%) of your assets whether in a single transaction or series of transactions. Notwithstanding the foregoing, Arm may, in its discretion acting reasonably, separately agree to authorise the re-host of a Licensed Seat (for which additional charges may apply).

12.5 Subject to any applicable legal restrictions, including but not limited to those relating to the security of classified information, at Arm's request, (i) you agree to check your computers for installations of the Arm Tools, copies of License Keys, contents of any license server log files, individual or concurrent usage of Seats, and any other information requested by Arm relating to Arm Tools installation, usage and License Key management, and, to provide this information to Arm; and (ii) you agree that Arm may instruct appropriately qualified independent auditors to perform such checks by prior appointment during your normal business hours on reasonable notice. In respect of any audit, Arm shall bear the auditors' costs for that audit unless it reveals unlicensed usage, in which case you shall promptly reimburse Arm for all reasonable costs and expenses, including professional fees, relating to such audit. Any information which is disclosed to Arm or such auditors during checking or audit shall be treated as your confidential information and shall only be used by Arm for compliance and enforcement purposes.

12.6 The Arm Tools provided under this License are subject to U.S. export control laws, including the U.S. Export Administration Act and its associated regulations, and may be subject to export or import regulations in other countries. You agree to comply fully with all laws and regulations of the United States and other countries ("**Export Laws**") to ensure that the Arm Tools are not (i) exported, directly or indirectly, in violation of Export Laws, either to any countries that are subject to U.S. export restrictions or to any end user who has been prohibited from participating in the U.S export transactions by any federal agency of the U.S. government; or (ii) intended to be used for any purpose prohibited by Export Laws, including, without limitation, nuclear, chemical, or biological weapons proliferation.
